# CROSSOVER TO FLEXIBLE EFFICIENCY

The forward-thinking approach we apply to our products ensures our commitment to providing efficient solutions. We will never compromise when it comes to providing efficiency – and we don't expect you too either!

The XATS 138 "crossover" is the compressor you have been looking for. This compact, easy to move compressor gives you the added flexibility of being able to provide more pressure and flow, dependent on your application needs.

Thanks to its intuitive PACE system (Pressure Adjusted thru Cognitive Electronics) you receive the most options from a single compressor. This pioneering technology enables multiple pressure and flow settings, ensuring you match air flow and pressure to your application needs.

Optimise your fleet investment, improve utilisation and get a higher return on investment with the new XATS 138 compressor.

## STANDARD FEATURES

### 1. PACE TECHNOLOGY

- Pressure can be set with the XC2003 controller in 3 simple steps. Pressure can be adjusted within increments of 0.1 bar. You can also track the compressor's utilisation and planned service interventions.

### 2. HARDHAT® CANOPY

- This legendary canopy was born in 2005. The XATS 138 features the latest, toughest design. The HardHat protects all internal components, keeps the machine looking as good as "new" and increases the residual value.

### 3. EASY TO MOVE

- Lightweight and compact, this model can be easily towed. The XATS 138 is mounted on a single axle, enhancing its manoeuvrability on site.

### 4. SERVICE EFFICIENCY

### 5. SPILLAGE FREE FRAME

- 100% guaranteed to contain all fluids. This is not an option – it comes as standard. The 3 layer corrosion protection coating (category C3) extends lifetime and increases residual value.

### 6. FUEL EFFICIENCY

- Combining the Atlas Copco screw element with a Kubota diesel engine, we deliver a compressor that is best in class in terms of fuel economy.

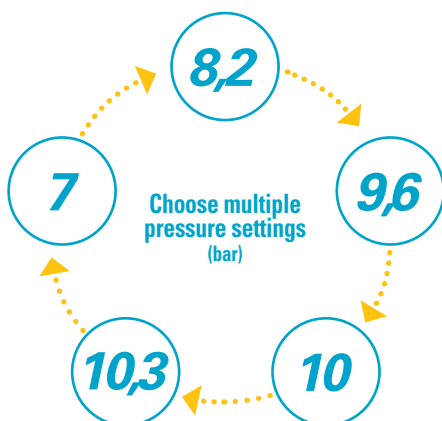

### 8. ENGINE PERFORMANCE

- The XATS 138 is powered by a 4-cylinder Kubota engine. Stage 3B compliant with DOC & DPF. This brings you emission compliance at no additional maintenance cost.

### 7. OPTIONS

- The wide range of options allows you to adapt the XATS 138 to your specific application needs. This makes the unit versatile, for even the most demanding working environments.
